

Our British client is a prestigious biopharmaceutical enterprise who is primarily known for his top-selling key products in multiple sclerosis. In addition, our biopharmaceutical client is now focusing on another key product that paves its way to becoming a huge blockbuster brand and is implicated for the treatment of two severe and rare forms of juvenile epilepsy - incl. an orphan drug status.

Recently, all our client's products have been tested in multiple clinical trials for additional indications. The next trailblazing endeavour of our client is to build and establish an affiliate in Germany which includes a team of four Medical Science Liaison Managers.

We are looking for a MSL Manager (m/f/d) who has a specific high-profile medical-scientific focus.

Are you a sophisticated self-starter, with analytical techniques and are a science driven character? Are you ready to be a pioneer? Then we are looking for you!

We are looking for a:

Medical Scientific Liaison Manager (m/f/d)

Standort: Home-Office in der Region
Kennziffer: 26214

Responsible for the region:

- Hamburg, Bremen, Lower Saxony and Schleswig-Holstein

Assignments

- Identifying national, regional and local KOLs in the area of Neurology & Rare Diseases, and developing and maintaining long-term collaborative relationships
- Providing medical expertise to clinical professionals, in a reactive environment
- Delivering on partnership projects, in a compliant therapy area environment
- Working in a compliant environment, with patient safety and care at the heart of all activities
- Internal Functional Group Collaboration
- Interfacing compliantly with commercial and marketing colleagues
- Identifying and supporting Phase II-IV sites as required and working with the clinical team as major liaison for trial sites
- Receiving and processing Investigator Initiated Trials (IIT) from the environment, and working with the medical and clinical team to ensure all IIT are providing appropriate support
- Leading the production of Medical Documents, Presentations, and Reports, working across a range of internal functions
- A more detailed description is available upon request

Requirements

- University Degree incl. PhD in natural sciences, medical science or pharmaceutical science
- At least 4-5 years of professional experience in the pharmaceutical industry with a recent position in medical liaison management, medical affairs or clinical operations
- professional experience in Epilepsy, Neurology or CNS (Central Nervous System)
- A proven track record indealing with KOLs in medical scientific face to face discussions on clinical off-label data
- A character built on a pro-active working style and a pioneer spirit
- Full professional proficiency in English
- Full professional proficiency in German
- Routineer in MS-Office Tools
